The Sixth Brigade minstrels, including the best talent of the thousands of soldiers encamped at Douglas and neighboring points on the border, will appear in Bisbee Thursday night at the Airdome. The Brigade minstrels are said to be the best that have appeared in Douglas and will, undoubtedly, pack the Brewery Gulch playhouse to capacity.

In order to accommodate the scenic effects of the comedians it has been necessary to enlarge the stage and this will have been completed in time for Thursday night's performance. The minstrels have received the support of Douglas and will undoubtedly find it in plenty of Bisbee.

ONE VOTE AGAINST FIRE DEPARTMENT

But one vote was cast against the proposed creation of a volunteer fire department in Lowell, at the election held yesterday. The election was restricted to property owners and tax payers and the registration was comparatively small.

Forty-four names were registered and thirty-seven cast their ballots, thirty-six being for the proposed department and a tax levy to support it while one voted against the proposition.

This will mean that as soon as the board of supervisors canvass the election that Lowell will have a fire department which will eliminate, to a very large degree, the constant danger of a serious conflagration.

PHOENIX ATTORNEY SAYS BISBEE LOOKS BEST OF ANY CITY

Judge Barnum, of Live Stock Board, Declares Bisbee to Be the Most Prosperous City in the State of Arizona.

Judge W. T. Barnum, attorney for the live stock sanitary board, a two weeks' visitor in Cochise county, one of the most traveled of officers of the state administration, says that he enjoys coming to Bisbee—that it is the best looking city in the state of Arizona.

The Phoenix attorney has been the attorney for the live stock board for some time and in his connection, therefore, has taken him into every county seat in the state. He has made more trips into the sections where cattle raising is one of the principal industries as it is his work to aid in the prosecution of cattle stealing cases and all court actions of that character. "I have been more or less all over the state during the past six months and can say, unqualifiedly that Bisbee presents an appearance, backed up by solid facts, of the best town in the state," stated Barnum. "The other copper mining centers of the state are good but, for some reason or other, they do not come up to the headquarters of the Warren District."

Judge Barnum says it's hot in Phoenix, but being a Phoenixian declines to say anything that is not complimentary of the capital. He acknowledges the heat because even the best booster of the Salt River Valley acknowledges that and adds the summers are the best seasons of the valley's years. In a business way Phoenix, according to the visiting attorney, is picking up and that the people there expect to see much better times within the next few months.

Judge Barnum has just completed, with Judge Sutter and Bruce Stephenson, the prosecution of the Doling case, which was completed in Tombstone yesterday.

He declares that with the high price for cattle the "rustling" business has picked up considerably, principally in Cochise, Pima, Gila and Coconino counties. Though the officers are busy and on the job every moment the "rustlers" will get in their work. Barnum leaves for Phoenix this morning and will return later this year for other cattle cases which are upon the superior court's docket.
